

APPLICATION FOR SIGNIFICANT INDUSTRIAL USER SEWER CONNECTION

BAYSHORE REGIONAL SEWERAGE AUTHORITY
100 Oak Street
Union Beach, New Jersey 07735

APPLICATION FOR REVIEW OF PLANS FOR INDUSTRIAL SEWER CONNECTION AND PERMIT TO DISCHARGE INDUSTRIAL WASTES INTO THE BAYSHORE REGIONAL SEWERAGE AUTHORITY SYSTEM, COUNTY OF MONMOUTH, STATE OF NEW JERSEY.

This application must be filed in duplicate accompanied by all appropriate fee(s) as set forth by Exhibit E of the Rules and Regulations of the Authority. This application must be filed with the Executive Director of the Authority at least six months in advance of a regularly scheduled meeting of the Authority.

Application is hereby made for review of plans of proposed industrial sewer connection and for issuance of an Industrial Discharge Permit to allow industrial waste to be discharged to the Bayshore Regional Sewerage Authority System.

1. Applicant's Name: _____
(name of company)
Address: _____

(municipality) (state)

Applicant's Telephone Number: () _____

2. Name and Title of Person Authorized to file this Application (if different from above):

(name) (title)

Address: _____
(street) (municipality)

(state) (telephone number)

3. Standard Industrial Classification Number(s) of Applicant: _____

4. Location of Property to be Served:

(street) (municipality)

(tax map block) (lot number(s)) (area)

5. Description of Type of Industrial Activity proposed: _____

6. Locations of Point of Connection to Authority or Municipal Sewer System: _____

7. Check off which documents are accompanying application:

- Plans and specifications covering all Industrial sewer connection work proposed under this application, including connections and required pretreatment facilities.
- Plot plan showing accurately all pretreatment facilities, sanitary sewers and metering facilities proposed.
- Complete engineers report of proposed pretreatment facilities including:
 1. Projected volume of wastewater to be discharged.
 2. A complete physical and chemical analysis of the waste to be discharged to the Authority's system as determined by an analytical laboratory certified by the State of New Jersey, including any parameters listed in Appendix A of this application.
 3. Time and duration of discharge including any or projected daily (24 hour) variation in wastewater flow, biochemical oxygen demand and suspended solids as well as monthly seasonal variation if any. This information shall clearly indicate maximum, minimum and average values for these parameters.
- Laboratory analysis and supporting documentation to profile discharge.
- Industrial User Application Form - General Information (Exhibit L).
- Industrial pretreatment questionnaire (Exhibit F).
- A treatability study (Exhibit G).

8. Name and profession of person designing applicant's industrial waste system:

(name) (profession)

Address: _____
(street) (municipality)

(state) (telephone number)

9. Applicant's design professional's estimate of cost of construction of industrial waste system including sanitary sewers, pretreatment facilities and metering facilities \$ _____

10. Applicant's anticipated date for start and completion of construction _____ to _____
(starting date)

EXHIBIT D

(completion date)

11. In consideration of the approval of this industrial sewer connection the undersigned agrees to:
- a. Submit any additional information relating to the Industrial Sewer connection or the Industrial Discharge Permit for which this application is submitted as may be requested by the Authority.
 - b. To accept and abide by all provisions of the Authority's Rules and Regulations adopted:
 - c. To notify the Authority immediately after discovery in the event of any breakdown, accident, negligence, or other occurrence that allows discharge to the Authority's system of any wastes or process waters restricted by the Authority's Rules and Regulations.
 - d. To accept and abide by all provisions and conditions of the Industrial Discharge Permit including:
 - 1. Schedule of surcharges for wastewater concentration in excess of specified amounts as set forth in Section 15 of the Rules and Regulations.
 - 2. The average and maximum wastewater constituents and characteristics.
 - 3. Limits on rate and time of discharge requirements.
 - 4. Requirements for installation of inspection and sampling facilities and specifications for monitoring programs.
 - e. Requirements for maintaining and submitting technical reports and plant records relating to wastewater discharge.
 - f. Daily average and daily maximum rates or other appropriate conditions when pollutants, subject to limitations and prohibitions are proposed or present in the Industrial wastewater discharge.
 - g. Compliance schedules as needed.
 - h. Right of Entry: Under the terms of the discharge permit the user shall allow the Authority, or its duly authorized representative, upon the presentation of credentials:
 - i) To enter the control meter chamber of the contributing industry for the purpose of inspection, observation, measurement, sampling and testing.
 - ii) To inspect any monitoring and equipment or monitoring methods required by the discharge permit.
 - iii) To inspect any process that contributes to the wastewater discharge.
 - iv) To inspect the pretreatment facilities of the contributing industry for the purpose of observation, measurement, sampling and testing as required by 40:14a-7.
 - v) To have access to and copy any records required to be kept under the terms and conditions of the discharge permit.
 - i. Reporting requirements as set forth in Section 13 of the Authority's Rules and Regulations.
 - j. Any other conditions that will ensure compliance with the Authority's Rules and Regulations.

Authorized Signature of Applicant: _____
